On the liability side, MYHMC had total liabilities of \$420,500 of which all are current liabilities (and that consists primarily of unearned revenues of \$281,400 and accrued sick and annual leave of \$81,000). That leaves MYHMC with total equity of \$4,084,600 of which \$3,584,600 is unrestricted net assets. For the month of April MYHMC had revenues of \$152,500 and operating expenses of \$90,500 which resulted in Net Income of \$61,900. 3. Director's Report (Mr. Whited)

The Point:

The Breakwater Drive Project is 87% complete with the completion of the Point Improvements to be completed by the 3rd Quarter of 2022.

CNO and the project team All South Engineering and TKTMJ Construction incurred progress delays in 2021 after Hurricane Ida and a recurrence of Covid earlier this year.

The team has concluded scoping a final change order to provide Improvements to the Point as a pedestrian friendly environment at the Point and connecting walking paths from the lake-edge to the marina basin. There will also be street resurfacing, dedicated

parking, drainage improvements and benches. Plans will be made available to MYHMC for their June 2022 Board Meeting.

Boat Launch: The electrical contractor is in the process of reopening their permit. Entergy has installed the transformers but have not hooked up to the platform or installed the meter (which needs the permit to be reopened.) The gates are being fabricated.

Marina: The Marina is currently at 88% occupancy with a steady flow of transient vessels. MYHMC staff is currently working the waiting list and filling slips. Cox will cover the installation cost of the wifi system for the marina except for the poles mounted to the floating dock. They are providing me with the specs and locations of the poles so we can get them installed. Pump-out – same as boat launch.

West End Park: Nothing new to report.

Fishing Pier: The pre-submittal conference for the RFQ for Architect and Engineering is scheduled for May 23rd.

Sale of Boathouses: MYHMC Staff met with property management to begin the process of the sale of the two boathouses. Process is ongoing and we are following up with next steps. Boathouses reported with damage have been issued letters requiring amelioration. They have been cooperating.

Marina trash and waste pickup – Due to delays in trash pickup by Metro Commercial – we have had excess waste at the marina entrances. We have requested 6 additional trash carts to be placed at the marina entrance and around the park. Our permanent solution will be to bid several permanent trash receptacles to be emptied daily into a large dumpster by marina maintenance staff. This process is forthcoming.

Motion to accept the Executive Director's report by Mr. Hammond, second by Mr. Watkins. Motion carries.

4. Unfinished Business (Mr. McConnell)

Mr. McConnell gave an update on the RFQ for the Fitzgerald's restaurant site. The RFQ should go out in the next few months. This gives an opportunity for the stakeholders to start to gather requests and recommendations to be included in the RFP once the qualified developers are selected.
