ACTION ITEMS

1. On a motion by Ric Smith, seconded by David Halpern, and unanimously carried, a Resolution was adopted “Approving Revisions to the Harbor Rules and Regulations”.
2. The Board held a discussion with respect to the proposed Pearl Condominium Project on the New Basin Canal. Mr. Tureaud believes that the proposed project would have a huge impact on MYHMC’s Boathouse owners. Mr. Smith said that MYHMC was engaged in the City’s Master Plan Process at West End, and he is concerned about several items including the limited resources of sewer, water, drainage, and the adequacy of North and South Roadways. Mr. Halpern said he believes that the density that is proposed is too great and will create parking issues in the West End Area. Mr. Smith stated that although MYHMC may not have all of the information on the issues that have been discussed, he believes that there is enough information to oppose the City granting a height variance for the proposed project.

Mr. Reginald Smith made the following Motion:

“That the New Orleans Municipal Yacht Harbor Management Corporation (MYHMC) takes a position in opposition to the Pearl Project receiving a height variance beyond the current sixty-five (65) foot that is called for in the City’s Zoning Ordinance and the Building Code”.

The Motion was seconded by Ms. Jennifer Heebe, and it unanimously carried.
